New Mechanic Engineering Design Company started its business in 2007 in the field of designing and manufacturing machinery for filling and packing cosmetics, pharmaceuticals, foodstuffs.

The products of this company are in quality approved by the major manufacturing companies such as SEHAT,BATH, SAVIZ, ... in the cosmetics, sanitary and detergent industries, as well as the companies of SAPEL, TAK SAZEH, BANI NOU, POOLAD POOYESH, TINA JAM ..., which is one of the most influential factors in the development of qualities in New Mechanics.

Creativity and innovation, and the quality are one of the most effective components for today's market penetration, which has always been most important way to Mechanic No Co..

Child proof assembly cap and seal inserting machine

NM-AS110

Child proof assembly cap and seal inserting machine
This machine designed for child proof assembly in pharmacy, sanitary and detergent industries and seal injection inserting or washer into cap.

Operation	Automatic
Number of heads	2
Speed	per hour 6500
Number of load seal	2
Number of load column	2
Seal Feed	Automatic
Caps arrangement mechanism	Blade lift
Sprocket mechanism	Index Gear box with high accuracy
Body and structure material	Iron covered be electrostatic paint
Material which have contact with Cap	Stainless Steel
Control system	PLC & HMI
Machine Dimension (Cm)	310×380×280
Machine Weight (Kg)	420
